huehd.com/animation

HUE Animation Studio no longer includes a CD. Everything you need to get started can be downloaded from our website.

activating your software

1. Find your activation code on the back of your **HUE Book of Animation**.

FRONT

BACK

2. Register an account at ➜ **huehd.com/my-account**

3. Click on Register New Software and enter the activation code from your book.

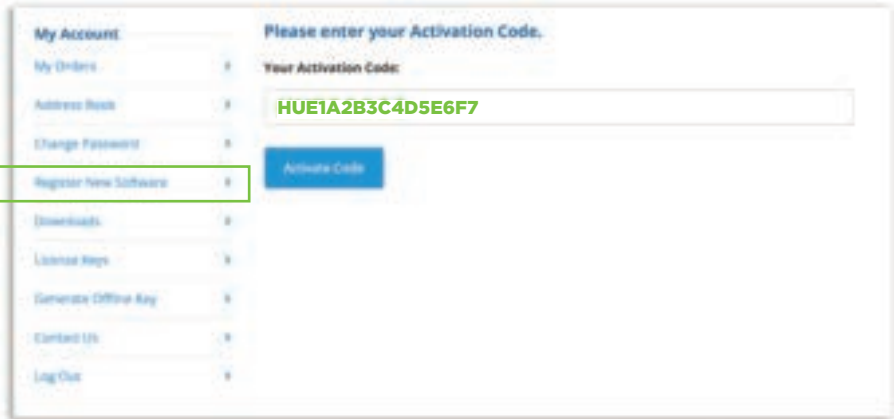

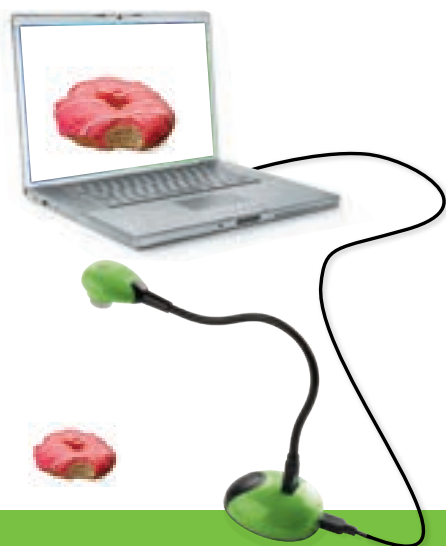

4. Download the software installer and follow the onscreen instructions.

You can always find the latest software updates in **My Account** > **Downloads** or at ➜ huehd.com/new

about your camera

Focusing ring

Microphone

Flexible neck

Camera LED light

USB

Base LED light

Base

USB cable

Focus your picture using the focusing ring.

Create a stage using the background on the box.

Additional backgrounds can be found on the last few pages of your HUE Book of Animation.

Your downloadable **HUE Animation Activity Pack** also includes printable backgrounds, or you can simply create your own!

starting your movie

1. Plan your story

You can print your own storyboard templates, backgrounds and other fun resources from the **HUE Animation Activity Pack**.

→ huehd.com/my-account/downloads

2. Set up your stage

Visit huehd.com/setmaking to discover tips and tricks for building sets and making your first movie.

3. Get to know your software

Visit huehd.com/tutorials to learn everything you need to know about setting up and using your animation software.

4. Select your camera

Open **Camera Settings** and select your HUE HD camera.
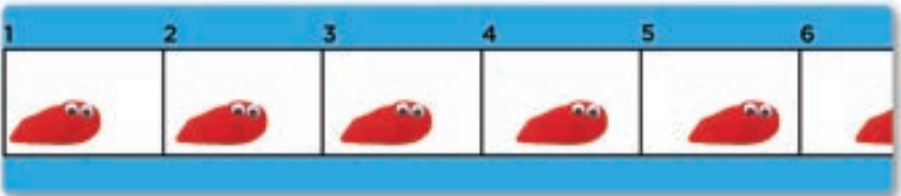

Input

Choose your input device

(HUE HD Pro camera)

(HUE HD camera)

Device properties

5. Take a picture

Click the **Capture** button, then move the object and take another picture.

Your software will have options to add music and sound effects to help bring any movie to life. The downloadable Activity Pack contains sample sound effects to get you started.

fun things to try

Time-lapse

Set the frequency of frames taken and the duration of your movie.

Green screening (Chroma Key)

See our tutorial **Using Special Effects and Chroma Key** at huehd.com/tutorials
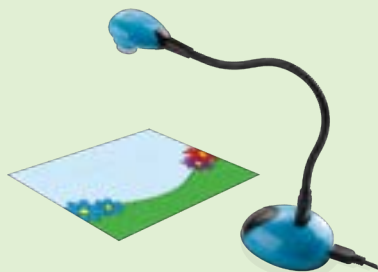

Disappearing act

Make something disappear by removing a small part closest to the ground each time you take a picture.

Filming from above

Place your background flat on the table and mount the camera above it.

You can also turn the camera upside down and flip/mirror the image in the Camera menu.

saving and sharing

You can save your project at any time by choosing **Save** from the **File** menu. Many apps also include an **autosave** feature.

When your movie is finished, select **Export** or **Share** from the **File** menu to create a movie file.

You can then share your movie on your preferred video streaming platform.

The HUE HD camera has been screened in accordance with RoHS Directive (2011/65/EU) and its amendment directive 2015/863/EU.

It has undergone EMC (Electromagnetic Compatibility) testing pursuant to EMC Directive 2014/30/EU, meeting the requirements of EN 55032: 2015+AC:2016 Class B (including EN 55032:2012 + AC:2013) and EN 55024:2010+A1:2015.

It has been tested to the UKCA standard for Electromagnetic Compatibility Regulations 2016 (S.I. 2016/1091).

It has also been independently tested and met the requirements for Phthalates and Total Lead Content in Computer and Electronics Accessories under California Proposition 65.

Recycling

The cardboard packaging and this booklet are recyclable where facilities exist. The plastic blister tray and cable tie are not recyclable and should be disposed of appropriately.

Disposal

Your HUE HD camera is an electronic product. It should not be disposed of in household waste streams.

For further information about recycling and disposal of waste electrical and electronic equipment in your region, please visit **huehd.com/recycling**
