

ALIEN AUTOPSY

Summer Reading 2019

Target Audience:

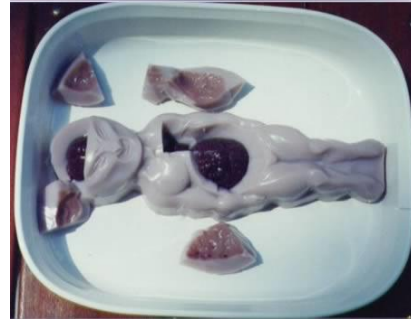

- 4th – 6th grade students

Supplies:

- Gelatin mold
- Gelatin
 - preferably orange or lime flavored
- Alien organs
 - Cooked spaghetti, googly eyes, small toys, small candies, crayon pieces, rice, straw pieces, yarn, rocks etc. (use your imagination)
- Scientist
 - Plastic aprons, latex-free gloves, plastic tweezers, plastic knives, & magnifying glasses

Recipe:

- 2 – 6oz. packages gelatin mix (orange or lime)
- 1 $\frac{3}{4}$ cup boiling water
- $\frac{3}{4}$ cup cold water
- Alien organs
Pour the boiling water into a large bowl with the gelatin mix, stir for two minutes, add cold water. Spray the mold with oil. Pour the gelatin into the mold along with organ pieces. Refrigerate for at least 3 hours.
Makes a thick, dense texture.

Extra Terrestrial Autopsy

Case No.:

Ada Public Library
