

## Activities

**Activity:** What is in the box? Inspiration [Sunflower Storytime](#)

This idea is not exactly how Sunflower storytime presented it. Her storytime was based on boxes and I took the idea of guessing what *animal* is in the box, to guess what *item* could be in the box. I had different sized boxes containing different sized items. I would shake the box and I wanted the kids to tell me what they thought was inside. I asked questions like is it hard or soft? Is it big or small? What shape is the item? They really enjoyed this game and I got so many surprised faces when I finally opened up the boxes to reveal what was inside.
