

Music Lady Props

to go with Make Yourself More Musical Workshop

with Beverly Meyer, The Music Lady

The All Purpose Streamer

Materials Needed:

Shower Curtain Rings or Pony Tail Holders or Jelly Bracelets as the handle

Plastic table clothes variety of colors

Scissors

Keep table cloth folded and use scissors to cut strips length wise. You can get 6 to 8 strips with multiple layers from one table cloth.

Unfold the layers and get a single strip. Fold strip in half, the fold will create a loop. Place the loop inside the circle of the handle. The remaining part of the streamer are the tails. Bring the end of the tails through the loop so it will hold onto the handle. Repeat with more strips, about 6-8 strips per streamer.

Make enough for everyone in your group to dance with one or two. Store them on a large grappling hook. Replace strips that may tear off. Use for any movement activity. Create custom colors to correspond with the song, for example, rainbow, blue shades for water, yellow shades for sun, green shades for grass, black, silver and colors for shooting stars.
